

Médecins du Monde International Network

OUR MISSION

© Layla Aerts / MdM Belgium

The Médecins du Monde International Network (MdM) is made of 17 independent health and human rights organizations working on domestic and international projects. Providing care, bearing witness, and supporting social change, MdM continues its mission to fight for the universal right to health. Through more than 400 innovative medical programs and evidence-based advocacy initiatives in over 70 countries, we enable vulnerable people and their communities to access quality medical services and fight for universal access to healthcare.

OUR VISION

Everyone has the right to the highest attainable standard of physical and mental health. Our vision is a world where all people have access to health-care: a world where health is recognized as a fundamental right for all.

KEY NUMBERS

17 national organizations

Working in over 70 countries

On more than 400 programs

Serving 7.25 million people

Thanks to 4,600 staff

And 6,300 volunteers

OUR VALUES

Not only providing medical aid but also documenting human rights violations and publicly denouncing abuses - this is the dual principle on which we support people in realizing their right to basic medical care.

Activism

As a global movement of volunteers and employees, we provide medical services and bear witness. Strengthened by our diversity, we support vulnerable people in social change.

Empowerment

We believe that the people we serve can be agents of change within their health journey. With our partners, we seek to support them to act and exercise their rights.

Social Justice

We believe social justice is a vehicle for equal access to healthcare, respect for fundamental rights and solidarity.

Independence

We are independent of all political, religious and financial authorities and interests.

Balance

We seek balance between our national and international actions, between emergency and long-term programs, between medical and lay knowledge, and between public funding and private donations.

**WE FIGHT AGAINST ALL DISEASES,
EVEN INJUSTICE.**
